## TRAVEL TIPS

### LUGGAGE ALLOWANCE AND IDENTIFICATION

Please check with your airline carrier for specific details regarding rules and applicable fees for carry-on luggage. To ensure your luggage is handled carefully and safely, please label it with your contact information.

We suggest you pack valuables such as jewelry, medication, and other valuables in your carry-on luggage. Airline insurance does not cover lost jewelry or camera equipment.

### TSA TIPS TO EXPEDITE BOARDING

- Remember the 3-1-1 liquids rule for carry-on baggage: You're allowed to carry on-board the plane one (1) resealable plastic bag of one (1) quart capacity with travel-sized containers of 3.4 ounces (100 milliliters) or less per item for all your liquids, aerosols, gels, cream and pastes. Liquid and related items in containers larger than 3.4 ounces must be in your checked baggage.
- Pack shoes, boots, sneakers, and other footwear on top of the other contents in your luggage.
- Avoid packing food and drink items in checked baggage.

We suggest that you lock your checked baggage with a TSA-accepted and recognized lock. TSA screeners can gain access to bags with these locks without damaging your bag or lock. Other locks may need to be cut if a physical inspection is required. See [www.tsa.gov/public](http://www.tsa.gov/public).

Please note: Current travel conditions require the presentation of a photo ID (e.g., passport or driver's license) at the time of luggage and passenger check-in.

### CLEAR SECURITY CHECKPOINT AVAILABILITY

For USA travelers, CLEAR Security Lanes and Enrollment Areas are offered at the Las Vegas McCarran Airport at [several security checkpoints](#). For more information on enrollment, please visit <https://www.clearme.com>.
